Test case 19: Successful Navigation on the Login Page

PROPERTIES

Test Case Id:	19
Assigned To:	Wissam Nasreddine
State:	Design

SUMMARY

Checks if a user can easily navigate the login page to log in.

STEPS

#	Action	Expected value	Attachments
1	Open the login page.	The login page loads successfully with all necessary elements.	
2	Verify the presence of the @Username and @Password input fields.	Both username and password input fields should be visible and ready for user input.	
3	Verify the presence of a "Forgot Password?" link.	The "Forgot Password?" link is present, allowing users to reset their passwords if needed.	
4	Verify the presence of a "Create an Account" or "Sign Up" link.	The "Create an Account" or "Sign Up" link is visible for new users who want to register.	
5	Verify the presence of the "Login" or "Sign In" button.	The "Login" or "Sign In" button is present to initiate the login process.	
6	Verify that the page does not have any unexpected errors or broken links.	The page is free from errors or broken links. All links and elements work as expected.	
7	Check if the page is responsive (for mobile and desktop).	The page should adapt to different devices and screen sizes, providing a user-friendly experience.	

PARAMETERS

Shared parameter 35: Username,Password

Username	Password
Username	Password
username	pasword

Test case 21: Successful Redirection to Registration Page

PROPERTIES

Test Case Id:	21
Assigned To:	Wissam Nasreddine
State:	Design
